

Learning in French, English & Spanish

Articles, biographies and information available in Spanish, English and French are linked. This promotes learning multiple languages at a young age.

Dictionnaire visuel for example, allows you to easily switch between the three languages to see the different word for one item. You can do this by selecting the language you want to switch to on the top right of the Dictionnaire visuel.

Articles that have English and Spanish translations will have this at the bottom of the article so you can jump to the English version. From there you can return to the French or continue onto Spanish translation.

World Book: L'Encyclopédie Découverte

World Book: L'Encyclopédie Découverte is a French Canadian language encyclopedia resource to help kids start learning and doing research on an endless number of topics while having fun.

Browse & Search

World Book: L'Encyclopédie Découverte offers a few different ways for kids to find information.

- The main page has a search bar on the top left under **Rechercher**.
- Browse articles by subject. Select one of the categories from below the search bar to get started. Each of these topics are further broken down to help you find someone or something from a specific field or with specific qualifications
- Browse by multimedia format by selecting **Images** from the far right of the page. From there, you will have to select categories from the left side bar. Some of these categories have categories within them.

Tools

World Book: L'Encyclopédie Découverte gives you 3 additional tools to read, learn and play with.

1. **Dictionnaire visuel:** gives you access to a visual dictionary that accompanies Spanish, French and English words with an illustration of the object.
2. **Sites Internet:** gives you access to a massive list of educational websites that can be used to find information on a large number of topics. This list is organized by subject
3. **Activités:** gives you access to a list of activities and projects that you can do at home. The activities include instructions, ingredients, discussion questions and evaluation suggestions.

Change the Display

The default display seen under the **Browse & Search** section is one of two ways you can see the website. To change the display to this, select **Changer l'affichage** on the top right.
